

## Operations Group: [Fabricators and Assemblers](#)

United Architectural Metals (UAM) is actively seeking qualified [Fabricators](#) and [Assemblers](#) to join our team in North Canton, Ohio. This position offers a unique opportunity to work in a collaborative environment to manufacture high-performance building enclosures across the United States.

United Architectural Metals is not only one of the most diverse suppliers of high-performance building enclosures in the market today, but also a family-owned business that prioritizes its employees and the local community. UAM collaborates with some of the world's finest architects, contractors, universities, hospitals, and businesses, bringing incredible buildings to life for over 25 years! Our unique design-assist approach allows us to be involved from start to finish, which has helped us build a strong and loyal customer base throughout the United States. If you believe you would be a good fit for our team, we encourage you to apply now. Join us and work on projects that you will be proud to share with your friends and family.

### Key Roles and Responsibilities:

- Fabricate aluminum extrusions with high precision using machinery, hand tools, and custom fixtures.
- Assemble aluminum, silicone, and steel components for custom building products.
- Track and report progress on a daily basis.
- Complete in-process inspections to ensure quality standards are met.

### Required Qualifications:

- Fabrication skillset. Prior experience with aluminum extrusions and silicones is a plus.
  - Must be able to use a tape measure.
  - 2 years of experience in a manufacturing environment is preferred.
- Capable of assembling components in alignment with tolerances and quality standards.
- Attention to detail, quality and safety.
- Proper operation of equipment.
  - 1 year experience using overhead cranes is preferred.
- Documentation of daily progress in a digital format.
  - Working knowledge of Excel is a plus.
- Ability to operate hand tools necessary for the job.
  - Prior experience with impacts, drills and caulking guns is preferred.
- Positive attitude with a team mindset.
- Reliable and punctual.
- Capable of reading engineering drawings.
- Able to lift a minimum of 50 pounds.
